Dr. Clapham is the most kind and respectful teacher that I have ever had. She truly cares about our wellbeing and our understanding of the course material and shows so through her actions.

The professor is always willing to work with students and the work she give out, she is understanding and very helpful in anyway a student needs assistance. She makes sure to keep students engaged in class and while doing assignments, her class is interesting and there is always something new to learn about with her.

Dr. Clapham has provided a great learning space and atmosphere where learning is not impeded by useless or tedious tasks meant to be filler. I have no complaints with Dr. Clapham or her curriculum. Her ability is reflected her classes being in high demand creating long waitlists.

Dr Clapham has been an amazing professor. Always there to answer questions and thoroughly takes time to explain assignments and class material and gives extremely helpful feedback.

She is one of the only teachers I feel strongly cares about students work ethic. She also encourages students without discouraging them. She is hands down one of the best teachers I have ever seen. Not only does she not want kids to fail, but she takes time to explain things differently if someone isn't absorbing it the first time.
